WILL SOON JUNK COUNTY RAILROAD

Attorney General's Decision Annuls that of Public Service Commission and East Berlin Railway will soon be Torn up.

Within a short time the tracks of the East Berlin Railway will be torn up and the rails, with the other equipment of the road, will all be sold to the best buyer, thus bringing to an end the existence of a line which for a number of years has provided accommodations for the people of East Berlin, Abbottstown and adjoining territory.

This announcement follows the decision given on Monday by Francis S. Brown, attorney general of Pennsylvania, granting the application of William G. Leas and the East Berlin Railway Company for a writ of quo warranto to annul the charter of the railroad. It brings to a close a long and bitter fight between the residents of the town and townships affected, and the present owner of the road, the people of that section using every means at their command to compel the resumption of the train schedule on the line.

So far had they carried their fight that the Public Service Commission of Pennsylvania had made the order desired. It was extended from time to time, the most recent extension being from March 8 to April 8, the latter date being set for trains to start running once more on the road.

The opinion of the Attorney General supersedes this order and marks the close of the fight as there is no appeal from his decision and formal proceedings for the forfeiture of the charter will be commenced in Adams County Court in the very near future. It is expected that the proceedings will be pushed along rapidly and that it will be but a short time before Mr. Leas will be enabled to "junk" the road.

Just what steps the people of the eastern end towns will take to secure accommodations with nearby communities remains to be seen. They have hoped all along that the road would really begin operations again and, now that this hope is unfounded, it is probable that they will take up some trolley project giving connection with York, Hanover, or New Oxford.

GET MORE GAME

Rabbits and Deer for Hunters of this State.

Another consignment of Virginia and West Virginia rabbits has been turned loose in the state by game wardens. Probably a thousand have been bought in the last six weeks. The game commission is also awaiting shipments of deer from Michigan. Several were recently turned loose in western counties. In eastern counties several Massachusetts deer were liberated.

ANOTHER ELECTED

Seminary Senior will Serve Church at Mercersburg.

Willbur M. Allison, of York, who will be graduated from the seminary in May was on Sunday unanimously elected pastor of St. John's Lutheran church, at Mercersburg. Dr. Kuhlman preached at Mercersburg Sunday and conducted the election. This is the congregation from which the Rev. J. Edward Harms was called to St. Matthew's Lutheran church, York, several years ago.

STUDENTS WANT HONOR TESTED

More than Three Fourths of Gettysburg College Boys Want Professors' Supervision at Examinations to Cease.

Gettysburg College students have placed themselves on record as wanting to be put on their honor in the matter of all written tests. The day of professors' supervision during examinations is said to be nearing an end, and the boys will be allowed to take all such tests without having the eye of an instructor watching them in order to detect evidences of cheating.

After several mass meetings and much argument, the question of adopting this new method of work was put up to the students for a vote. It is understood that the faculty favors the idea, and the passage of the plan by the boys themselves was believed to be the only thing necessary to change the system. Each man accordingly felt the responsibility of casting his ballot one way or the other.

The student council decided that a three-fourths vote would be necessary to pass the motion. Of the student body the majority voted and 236 ballots were cast, 177 being necessary for a favorable issue. When they were counted it was found that the affirmative side had a margin of just six votes the tally being 183 for, and 53 against. A committee composed of two members of the student council, two Seniors and a Junior will now draw up the rules for the system.

Another lively contest is in prospect here, for it is expected that many of the boys will balk on the proposition of informing on their fellows which is frequently a part of the honor system. This method provides a clause which states that any student seeing another using unfair means shall be expected to report on the offender. Many object to being made spies on their friends, while others state the honor system cannot be carried out unless some means are taken to guard against those who would take advantage of the liberty afforded them.

It is generally believed about the school that the adoption of the new system will raise the moral tone of the boys and that, in time, the sentiment aroused against cheating will be so great that a student knowing that he has been discovered in the offense will leave the institution without any action being taken against him; the shame of his breaking faith being too great to allow him to face his fellows.

CLASSIS MET

Considered Resignations of Adams County Ministers.

A special meeting of Gettysburg Classis, of the Potomac Synod, was held in Hanover this afternoon to consider the resignations of Rev. N. W. Sechlar, pastor of the Jefferson charge; Rev. George S. Butz, pastor of the Littlestown charge; Rev. William H. Miller, of the East Berlin charge, and Rev. Wilson S. Hartzell, pastor of the Cashtown charge.

LANTERN FOR CHIEF

Can Now Find Head of Fire Company in the Dark.

Fire Chief Plank has been presented with a green and white lantern by Samuel Weiser. At Friday night's fire Mr. Weiser noticed that it was difficult to distinguish the chief in the dark and he conceived the idea of equipping him with a lantern that could be seen at a distance. The gift is much appreciated.

ST. PATRICK'S DAY PROGRAM

Two Dances and Many Parties Scheduled for the Festival. Stores Filled with Novelties in Green. Wearing Apparel also.

The feast of St. Patrick will be generally observed in Gettysburg tomorrow.

The wearing of the green will be participated in by all those who carry a drop of Irish blood in their veins and by scores who do not. The observance of the day has ceased to be one for the sole enjoyment of the Irish alone and is generally regarded as a festival which all can enjoy.

Many social events, in which decorations, favors, and even refreshments bearing the emerald will feature, have been planned in private homes and by town organizations. At college two of the fraternities will entertain on Wednesday evening at St. Patrick's Day dances.

Flags, emblems, novelties and favors for the festival have been on sale in the local stores during the past 10 days and have not lacked buyers. There are shamrocks of silk, miniature stove-pipe hats, Irish flags, Pad-dy's pig done in green, clay pipes, boxes finished in green and decorated with harps and other emblems of Erin, miniature figures of St. Patrick, champagne bottles in which green fans are hidden, models of Irish potatoes and other devices in endless variety.

Green is the prevailing color on the confectioners' counters, just now. St. Patrick's day souvenir post cards are giving color to the tide of mail that is passing through the local post office at present.

The men's furnishing stores have displays of green neckwear and hosiery. The demand for these is as usual. Patriotic Irishmen and those without a drop of Irish blood will probably affect the green necktie and socks of emerald shade on the great saint's anniversary, Wednesday.

BIG CROWD THERE

Pitzer Sale Establishes Record for the Present Season.

C. E. Pitzer's sale in Mt. Pleasant township on Monday drew the largest attendance of the present season, the crowd being estimated at 1000 or 1200. The total of the sale was \$4802.37. The best horse brought \$207, the best cow \$70, and a pair of mules \$350. Shoats sold for \$8 and other things brought excellent prices. G. R. Thompson called the sale, and L. U. Collins was the clerk.

Frank Eckert's sale in Butler township on Monday amounted to \$1693.35. The best horse brought \$145, the best cow \$63.25, a pair of mules \$276. Slaybaugh called the sale, and Morris and Bowers were the clerks. Dinner was served to 110 persons.

H. B. Slonaker's sale in Hamilton township on Monday amounted to \$2929. The feature of the sale was the price brought by a pair of mules—\$514—the record for the season. The best horse brought \$141, the best cow \$48.50, and sheep \$15. Crouse and Young called the sale, and Spangler and Son were the clerks.

Pius Renold's sale near East Berlin on Saturday amounted to \$1,600. Two horses sold for \$180 and \$61 each and cattle brought prices ranging from \$33 to \$70 each; shoats, \$6.25 to \$7.50 per head. Abraham Roth, Abbottstown, was the auctioneer and Jesse Hacht and Harry Serff, were clerks. Mr. Renold's will discontinue farming and will move to East Berlin this spring. Curtis Seidenstricker will tenant the farm.

NEW PEN MAR FOR RESORT'S NAME

Western Maryland Officials Decide on that as Best Title for their Greatest Summer Attraction. Plan Improvements.

There is to be a New Pen Mar this year.

Western Maryland Railway officials have busied themselves with arrangements for a rejuvenation of the park and along with the many new things they will put there they will give the name, "The New Pen-Mar."

There will be a children's playground, near the miniature railroad, but not close enough to it to endanger the lives of the children. This is to be absolutely free to all children. It will contain swings, a "Flying Dutchman", merry-go-round, swinging rings, parallel bars, sand boxes and other things which will amuse and interest the children. The owner of the railroad will build a miniature station and a scenic tunnel along his track, to make that more interesting.

A monster search light has been procured and a building for it will be erected. It will be used to light up the valley and Waynesboro will be distinctly shown, while Hagerstown can be seen of nights by means of it, it is said.

Prof. John Bohl and his orchestra have been re-engaged for the coming season and there is to be more of the delightful music of the past years. The orchestra will play in the morning and there will be a free dancing instructor there during that time.

Dance tickets will be sold in strips of ten, for ten cents. This will make each dance cost a penny. These tickets will be good until used and will prove a very popular change in the matter of admission to the dancing floor.

U. S. THREATENS FORCE IN MEXICO

Carranza Yields Just After Warning is Sent.

SHOT AT U. S. SHIPS

First Chief Opens Port of Progress and Final Warning Against Seizure of American Ships is Sent.

Washington, March 16.—General Carranza has abandoned his blockade of the port of Progress on the urgent representations of the United States government.

The Mexican gunboat Zaragosa has been called off and the two American ships laden with sisal for the United States were cleared on Saturday without interference.

Rear Admiral Caperton, commanding the American fleet of Mexican waters, reported the raising of the blockade in his official dispatches and reported that the Zaragosa had returned to Vera Cruz.

The admiral's dispatches telling of relief of the situation at Progress crossed a new note from the United States, which was sent on its way to Carranza, giving notice that the United States was determined to raise the blockade and, if necessary, use the cruiser Des Moines to do so.

It became known for the first time that last week a Mexican gunboat had stopped one American ship with a shot across her bows, had held up another and had interfered with British shipping.

The seriousness of the situation growing out of the blockade of Progress was pointed out by Secretary Houston, of the department of agriculture, who advised the president that 200,000,000 pounds of wheat are used each year in the United States in binding grain, flax and corn crops and that nine-tenths of the supply is made from sisal grown in Yucatan and exported through Progress.

Since Feb. 25 the state department had steadily protested to Carranza against closing Progress, where there have been factional troubles between Mexicans nominally under his control.

Zapata's minister of foreign affairs who is again in control in Mexico City, has promised to punish immediately the murderers of John Mc Manus, the American assassin last Thursday by Zapata's men, and to pay an indemnity for his death.

RESERVE THAW DECISION

Court Will Rule on His Application to Be Sent Back to New Hampshire.

New York, March 16.—Justice Pace of the criminal branch of the supreme court, announced that he would reserve decision on the application of Harry K. Thaw, that he should be returned to New Hampshire, from which place he was extradited to New York to be tried on the conspiracy charge of which he was acquitted.

Meanwhile the court remanded Thaw to the Tombs in the custody of the sheriff, despite an appeal made by Deputy Attorney General Kennedy that Thaw be remanded to Matteawan pending the outcome of these new legal proceedings.

JAIL FOR BAD EGG MEN

Seven Men Sentenced in Trenton For Selling Decomposed Food.

Trenton, N. J., March 16.—Federal Judge Rellstab sentenced Morris Sladkus, Hyman Lewis, Bernard Edelberg, Samuel Edelberg, of Hudson county, to one year and one day in state prison for selling eggs in a decomposed state, in violation of the interstate commerce law.

Schiere Weisman, indicted for the same offense, was sentenced to three months in the Hudson county penitentiary, and Herman Zureker and Harry Lewites were sentenced to six months in the same jail.

Severs Postal Relations With Austria

Rome, March 16.—The Italian minister of posts and telegraphs issued orders suspending the exchange of telegraphic money orders with Austria-Hungary. Orders also were issued suppressing the traveling postoffice on trains bound for the Austrian frontier.

Root Not a Candidate.

Albany, N. Y., March 16.—Under no circumstances will former United States Senator Elihu Root be a candidate for president in 1916. He made this statement here. "All talk of my being a candidate is absolute nonsense," he declared. "Such a thing is impossible."

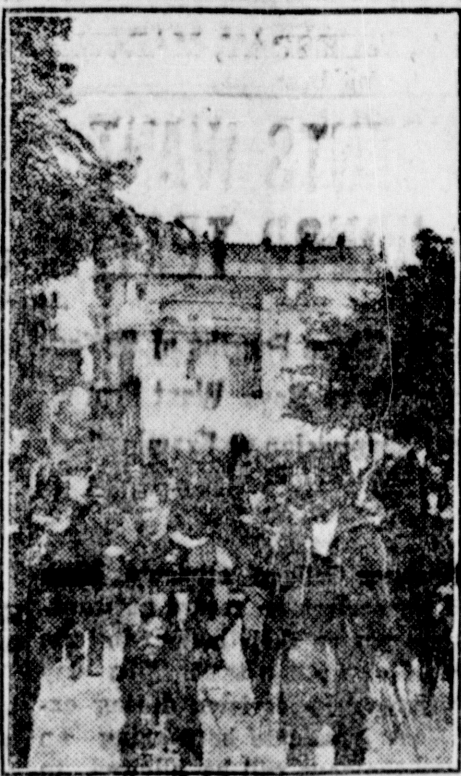

Buy 26,000 Horses in United States. Kansas City, March 16.—A contract to furnish the French government with 26,000 artillery and cavalry horses was concluded by a local firm of horse and mule dealers. The cost will be between five and six million dollars.

Twins Born in Railway Station. New York, March 16.—Overtaken as she was on her way to department stores for a shopping tour, Mrs. Anna Ray, wife of Joseph Ray, a tailor of Whitestone, L. I., gave birth to twin boys in the women's rest room of the Pennsylvania railroad station here.

REDRESS FOR FRYE DEMANDED BY U. S.

Note Insists Germany Pay Compensatory Damages.

Washington, March 16.—America's demand on the German government for compensatory damages for the destruction of the hull and cargo of the American ship William P. Frye, sunk by the German auxiliary cruiser Prinz Eitel Friedrich, was sent by cable in a note to Ambassador Gerard, to be delivered to the German chancellor, Von Bethmann-Hollweg.

The note is couched in the same polite but firm language as was the protest against Germany's war zone declaration.

Chevalier Van Rappard, Netherlands' minister in Washington, discussing with state department officials the progress of negotiations over the sinking of the Frye, said the Netherlands, as a neutral government, was keenly interested, as it was considered important precedents might be established.

The report that Germany might anticipate the demand of the United States by making an apology and suggesting compensation on a basis to be decided in due course in a German prize court has been current in Washington, but this is regarded as most unlikely.

The German government is not unimpaired. It is understood, that the representations which the United States government will make set up the contention that the wheat cargo of the Frye was noncontraband. The louder the complaint of the United States on this score and the more complete and convincing the argument that foodstuffs not destined for the consumption of the army or navy of the enemy should not be classed as contraband, the more sturdy Germany's own argument that Great Britain's construction of the expropriation decree is untenable in international law will be supported.

ATTACKED BY WILD DOGS

Trapper Beat Off Pack, But Was Seriously Injured.

Newton, N. J., March 16.—Six wild dogs attacked and seriously injured James Benson, a trapper, fifty years of age, as he was passing through a clump of woods about two miles from here.

Benson was accompanied by his dog, but was unarmed. The wild dogs set up a terrific howl as they ran towards him. Benson grabbed a club and, aided by his dog, succeeded in fighting off the pack.

Benson's coat and trousers were torn and his legs were badly lacerated. On his return to town he went to a physician, but no bones were found to have been broken.

Virginian Mayo Arrested.

New Haven, Conn., March 16.—Virginian J. Mayo, the central figure in the quadrangular love mystery revolving about the disappearance of one of his stenographers, was arrested, charged with being the father of the child of Miss Susan Wahler, who formerly was in his employ. Mayo furnished bail for his appearance before Justice Land for trial.

General Joffre Wounded.

London, March 16.—Private advices from France state that General Joffre, commander-in-chief of the French army, had a narrow escape from death while watching experiments with a new explosive. An officer who was standing beside General Joffre was killed and the French commander suffered painful injuries to his right arm.

TWO DESTROYERS SUNK

Berlin Also Reports Damage to Eight British Warships in Dardanelles.

Berlin, March 16.—Among the items given out for publication by the Overseas News agency were the following: "Constantinople reports that eight British warships have been damaged and a great number of the allies have been wounded in the fighting in the Dardanelles and taken to Malta. There are no enemy soldiers along the Dardanelles. The attacks on Smyrna have failed. The bombardment ceased two days ago.

"According to the Copenhagen Politiken a dispatch received from Athens reports the losses to the British fleet in the Dardanelles fighting a two torpedo boat destroyers and three torpedo boats sunk and four battle ships disabled and 700 men of landing men parties and 450 men of the ships' crews killed or wounded."

SMYRNA IS SHELLED BY BRITISH FLEET

Population Flees and Garrison is Reported in Mutiny.

London, March 16.—The bombardment of the Dardanelles is continuing intermittently, as the weather permits, and it is stated that the usual success is being achieved.

A dispatch from Athens reports that the British fleet under Admiral Sir Richard Plesse has resumed the bombardment of Smyrna and that the surrender of the city is expected momentarily.

The non-combatant population has fled to the interior, and it is said that the garrison is not likely to oppose the landing of the Anglo-French forces. Many of the Turkish soldiers are deserting, while others are looting the suburbs.

A serious blow at Turkey, in that it prevents the exportation of army munitions and supplies from Austria and Germany to Turkey, has been dealt by Rumania and Bulgaria, according to dispatches received from Sofia.

The two Balkan powers having signed a railway convention at Bucharest which allows the transit of all goods, but excludes arms and ammunition. It is believed that this will have a great effect, as the Turks are already short of ammunition and can not continue the defense of the Dardanelles upon their own resources.

TORPEDO-PROOF SHIPS

Two New U. S. Dreadnoughts to Be Protected From Dreadnoughts.

Washington, March 16.—In the plans for the two great dreadnoughts recently authorized the navy department has made provision for the construction within the hull of a second tier of compartments, next to the skin of the ship and on the sides, to keep out torpedoes.

It is expected that a torpedo discharged from a submarine, even if it penetrated the ship's side, would explode harmlessly in the outer compartment and that the damage would be so localized that the ship would not sink, because of the double-protecting walls of steel.

Some sacrifice of the double bottoms of the ships will be involved to get this extra precaution on the sides, but it is estimated that the damage from torpedoes directed against the sides probably will be much greater than that likely to arise from mines exploded under the bottom.

DUPONTS INCREASE WAGES

Salary of All Employees Raised 20 Per Cent.

Wilmington, Del., March 16.—No. 1000 have been posted at all of the Dupont explosive plants throughout the country announcing that, beginning April 1, each payroll employee will receive an advance of 20 per cent of his wages.

This advance will continue until the end of the current year and possibly longer.

Altar Boy Ablaze.

Shamokin, Pa., March 16.—The robes of John Gorza, altar boy at St. Stanislaus' Polish church, were accidentally ignited at the altar during services. Several priests and parishioners extinguished the flames. The boy and several of his rescuers were badly burned. Several women fainted during the excitement.

BRITAIN ORDERS BLOCKADE OF GERMANY

Will Seize All Ships Bound to and From Foe.

London, March 16.—The British government's plan, in co-operation with its allies, to cut off trade to and from Germany, was announced in London, in the issuance of the order, in council, which was signed by King George a week ago.

It contains drastic provisions, not only for holding up ships to and from German ports, but for the confiscation of goods of German origin or destination which are shipped from neutral ports.

Under this decree the civilian population of Germany, as well as the army, will be cut off from any form of overseas traffic so far as it lies within the power of the allies to bring this about.

The British foreign office delivered to Ambassador Page its reply to the American note proposing to Great Britain and Germany the withdrawal of the German submarine blockade provided England would permit food to reach German civilians. Great Britain's reply is an absolute refusal.

INDICT GUNMAN FOR MURDER

Slayer of Wilmington Patrolman Refuses to Plead When Arraigned.

Wilmington, Del., March 16.—Peter Melba, alias Krakus, alias Kelson, the murderer of Policeman Francis X. Tierney, was indicted for murder in the first degree by the grand jury at the convening of a special term of the court of oyer and terminer, held at the court house.

The prisoner was immediately arraigned and the indictment read to him, after which he was asked to plead, but refused to do so.

The court fixed next Monday as the time for starting the trial and assigned David J. Reinhardt as counsel for the prisoner.

PHOENIXVILLE MAN SHOT

Refusing Assailant's Demand For Whisky, Is Seriously Wounded.

Phoenixville, Pa., March 16.—Because Wilmer A. Davis, of Dayton street, refused to give him whisky, Albert Byerly twice shot Davis, both bullets taking effect in the latter's head.

Byerly knocked at the door of Davis' home and demanded whisky. "I have none," Davis told him. Byerly drew a revolver and shot Davis, whose condition is serious. Byerly made his escape.

Steel Mill Resumes.

Pottsville, Pa., March 16.—The Eastern Steel company's plant resumed full handed for the first time in six months. The plant has been working with a partial force, but improvements in the steel market made it possible to employ practically all the hands formerly on the payroll, a thousand in all.

GUARDED "THE DEAD"

George Snyder Becomes Demented. Says He's Nephew of Jay Gould.

Constable Irvin Rodgers, Rouzer, took to the Franklin County Home, George Snyder, a man of 72 years, who became demented at Charmian.

For several days Snyder had been acting in a queer manner. He could not sleep and he conjured up a lot of queer notions. One was that five or six people had been murdered in a cottage in the Charmian section. He began to patrol in front of this cottage, "so that no one could disturb the bodies", at half past five o'clock Sunday morning, and continued this until after the noon hour.

Early in the morning he tried to borrow a revolver from a neighbor. He declared himself "a nephew of Jay Gould."

CRUISER DRESDEN SUNK BY BRITISH

Is Trapped Near Juan Fernandez Islands.

MEMBERS OF CREW SAVED

Commerce Raider Runs Up White Flag After Five Minutes' Fighting and Goes Down.

London, March 16.—The admiralty announced that the German cruiser Dresden had been sunk. The engagement occurred off the Juan Fernandez Islands, west of Valparaiso, Chile, on Sunday, the admiralty said.

The British cruisers Glasgow, Oram and Kent trapped the Dresden and closed in upon her. After five minutes of action, during which heavy damage was inflicted on the German cruiser, she hauled down her colors and ran up the white flag of surrender. The Dresden was afloat, however, when the white flag was run up.

A magazine had exploded and the Dresden's upper works were on fire. Her crew were quickly taken off by boats from the British warships. The flames spread rapidly, and with successive explosions the Dresden quickly went to the bottom.

Fifteen wounded men of the crew of the Dresden were landed at Valparaiso. There were no English casualties, the admiralty announced.

The British admiralty's official statement is as follows:

"On the 14th of March, at 9 a. m., H. M. S. Glasgow, Captain John Luce, R. N.; H. M. auxiliary cruiser Oram, Captain John R. Segreave, R. N.; and H. M. S. Kent, Captain John D. Allen, C. B., R. N., caught the Dresden near Juan Fernandez Island.

"An action ensued, and after five minutes' fighting the Dresden hauled down her colors and displayed the white flag. She was much damaged and set on fire, and after she had been burning for some time her magazine exploded and she sank.

"The crew was saved, fifteen badly wounded. The Germans are being landed at Valparaiso. There were no British casualties and no damage to the ships."

GERMANS ATTACK FIERCELY

Gain Ground Below Ypres, But British Come Back in Counter Charges.

London, March 16.—In France and Belgium offensive operations are chiefly with the allies, whose activities are interpreted in London as preliminary to a general attack in the spring.

In Belgium, Champagne and the Argonne separate movements are under way, although apparently little ground has been gained except that won by the British near Neuve Chapelle, near La Bassee.

A slight reverse for the British at St. Eloi, Flanders, below Ypres, is admitted in the French official communication. It says that the Germans, making a violent attack, drove back the English forces. Later, however, the British regained part of the lost ground by a counter attack.

Violent cannonading is going on at a point on the northeast of Dunkirk, according to a dispatch from that seaport to the Havas news agency. The belief in Dunkirk is that a British squadron is bombarding the sand dunes around Nieuport.

Information from the Dutch frontier indicates that the British success at La Bassee has thrown the whole of the German right wing into a remarkable state of activity. Men are being hurried from all the garrisons and from some of the coast places to stop the advance of the English.

8000 SHELLS. \$1,000,000

Cost of One French Artillery Fight in Money Alone.

Paris, March 16.—The following official statement was issued by the war office:

"The withering effect of the French gun fire is shown from a letter taken from a wounded Bavarian. In one bombardment by the French artillery 300 Germans were killed and 400 wounded. Sixty-four guns fired 8000 shells, the cost of which was \$1,000,000.

Suspected Case of Cholera on Steamer

New York, March 16.—The Greek steamer Ioannina, which arrived here from Piraeus, Greece, with 263 passengers, was held up at quarantine by the health officers until there could be definitely determined the nature of the illness of Ioannina, a passenger in the steerage, who showed symptoms of Asiatic cholera.

Second Canadian Contingent in Camp

London, March 16.—The second Canadian contingent, which arrived in England last week without incident after a ten days' voyage, is now in camp. The men have shown such remarkable aptitude that they will soon be ready to take their places on the fighting line.

Hangs Himself in Shed

Middletown, Pa., March 16.—Henry Whitendale, of this place, hung himself in the wagon shed on George L. Hower's farm, three miles from this place.

BOY COPS WILL BE IN UNIFORM

To Be Feature of New York Police Parade.

HAVE DONE SPLENDID WORK

Regular Force Amazed at Efficiency of Boys and Respect With Which They Are Treated—Juveniles Now Work Under Direct Supervision of Third Deputy Commissioner.

New York's boy policemen, or, as they are officially known, the Junior Police of the City of New York, attired in uniforms copied from those of the regular force, will be a feature of the city's big annual police parade on May 8.

The uniforms are being provided by J. Beaumont Spencer, a consulting engineer, of 50 Church street, and Corwin Black, the president of a realty company of 2 Rector street. Both men have taken an active interest in the youngsters' organization.

The idea of "boy cops" was first put into practice by Captain John Sweeney of the Fifth street precinct. Gradually the membership in the precinct reached 210, some of the boys being those who had made the life of the regular policemen burdensome.

Captain John B. Sexton recently organized the boys in the East Twenty-second street precinct and now has a force of 175. In both cases the lads have aroused the admiration of members of the regular force.

Mr. Black and Mr. Spencer became interested in the efforts of the two police captains and made frequent trips to the districts. They were amazed at the efficiency of the boys and the respect with which they were treated not only by children of their own age, but by careless landlords who disobey the health department regulations, pushcart peddlers who failed to maintain the traffic and health regulations and, in fact, any violator of the law or ordinances.

The experiment was watched with keen interest by Commissioner Woods, and when reports showed the character of the work the youngsters were doing he placed them under the direct supervision of Third Deputy Commissioner Lawrence B. Dunham. This action makes the junior police force an official branch of the city's police department.

When arrangements for the annual parade were under consideration Lieutenant Charles Scobell, drillmaster of the department, was notified to prepare the boys for the parade. Captains Sweeney and Sexton were also notified, and public school 63, in Fourth street, between First avenue and Avenue A, was designated as drill quarters.

Police Drill is Taught. There every afternoon, except Sunday, one may find Lieutenant Scobell, Captain Sweeney, Captain Sexton, Mr. Black or Mr. Spencer, each of the men having agreed to give up two afternoons each week to see that the regulation police drill is taught to the boys.

Messrs. Black and Spencer at a conference recently with the commissioner decided that the boys would not look well in their street clothes in the parade, with only their badges to show their authority, so the two men agreed to fit out the junior force with a duplicate of the uniforms of the regular force.

In general order 10, issued by Commissioner Woods, the department was notified to get ready for the drill preparatory to the parade. Inspectors, captains and lieutenants are instructed to acquaint themselves with the army drill regulations in so far as they apply to the school of the soldier, squad, company, battalion and regiment.

The Sixty-ninth and Twelfth Regiment armies will be used for drills. There will be eleven regiments in the parade. The first regiment will be headed by the honor men of the department.

As in former years, Chief Inspector Schmittberger will lead the parade, and the regiments will be accompanied by the inspectors or acting inspectors.

Catarrh Caused By A Germ

How To Destroy The Germ and End Disease.

To cure catarrh so it won't come back you must, according to a noted authority, first drive from your body the millions of germs that are flourishing in the inner recesses of your nose and throat and are causing the disease.

There is a preparation which does this called Hyomei (pronounced High-o-mei). Hyomei is a germ killing vaporized air formed from the purest oil of Eucalyptus combined with other healing and antiseptic ingredients. You breathe Hyomei through the mouth and nose by means of a little hard rubber inhaler which druggists furnish with it. This medicated germicidal air penetrates into every fold and crevice of the mucous membrane of your nose and throat, kills the catarrh germs that lodge there, soothes, reduces and heals the swollen inflamed membranes, stops the discharge and opens up the clogged nose and air passage in a truly wonderful way. People's Drug Store and many other leading druggists in Gettysburg and vicinity sell Hyomei with the positive guarantee that it must cure catarrh or that the money paid for it will be refunded.

TRAINMEN WOULD END CREW LAW

Contend That Best Interests of Labor Demand Repeal.

Harrisburg, Pa., March 9.

Many Lehigh Valley Railroad men have taken the position with their representatives at Harrisburg that the Full Crew—"excess man crew"—law should be repealed in furtherance of the best interests of railroad employees. It also is true that many railroad men in the Pittsburgh district are quietly taking this same attitude, feeling that organized labor is being hurt by the false position which this law creates, compelling employment of men for whom there is no real service.

An old railroader, W. J. Herman, now manager for a large lumber concern, has written to William J. Burke, formerly a Baltimore and Ohio freight conductor, now a State Senator:

"You, as a Union Railroad man, undoubtedly are in sympathy with the Railroad Trainmen, and can be counted upon to do anything within your power to advance their interests; and, as you undoubtedly have looked into this matter, you surely have formed the opinion that the present law is not beneficial to the Trainmen any more than it is to the Railroads."

The impression gains here that the public is not disposed to longer tolerate class legislation, and it is being borne in upon legislators that the political power of union labor is really far less when it comes to votes than has been generally assumed. The trainmen's union continues to demand that the Full Crew Law be not repealed, but many legislators are turning a deaf ear to this demand, giving more weight to what is being urged upon them by their home constituents.

The above article is furnished by the railroads in their efforts for the repeal of the Full Crew Bill.

Medical Advertising New Discovery, For Skin Diseases

Doctors Having Great Success With Amolox.

Amolox, the new remedy for the cure of eczema and skin diseases, is applied externally. Does not soil or stain, dries instantly, is soothing and antiseptic, penetrating the skin, killing the germs that cause the disease. It is the prescription of a well-known physician, who has used it with remarkable success in his private practice.

Cases of chronic eczema, tetter, psoriasis, acne are now being cured after all other remedies have failed.

It will positively kill the germ and heal the skin in barber's itch in a few days. Stops all itch and burning instantly, renders the skin soft and soothes it so the sufferer can rest and sleep. People's Drug Store will refund your money, if you are not satisfied. Best results are obtained when both liquid and ointment are used. Trial size 50c.

PALMER OFFERED CLAIMS JUDGESHIP

To Succeed Chief Justice C. B. Howry.

IS A LIFE JOB AT \$6500

Ex-Representative Has Not Accepted
Offer, But President Wilson Feels
Sure He Will Accept.

Washington, March 16.—A. Mitchell Palmer, of Stroudsburg, Pa., the administration's candidate for the United States senate against Senator Penrose in the last election, has been offered by President Wilson a judgeship in the court of claims, to succeed Justice Charles B. Howry, who has resigned and will quit on April 1.

The position pays \$6500 a year. It is for life, and carries a three-fourths retirement pay after ten years or on reaching the age of seventy.

The acceptance by Mr. Palmer of the position has not been received at the White House, but is expected shortly.

Some of Mr. Palmer's friends supposed he was to get a foreign mission because of his services for the administration. That Mr. Palmer had aspirations for the court of claims bench is a surprise.

Mr. Palmer has been one of the president's closest friends and supporters in the house. He is given credit for having much to do with the nomination of Mr. Wilson at the Baltimore convention.

Mr. Palmer wanted the department of justice portfolio, but that could not be given him, because the president had offered the place to Mr. McReynolds, who had accepted.

For the court of claims vacancy there have been many candidates whose recommendations have been filed at the White House and the department of justice.

This is the second time that President Wilson has offered Mr. Palmer a place, and many believe that the president would not have offered the Pennsylvania place unless he had known Mr. Palmer would accept.

MORAL LIFE AID TO SAFETY

Employees of Carnegie Steel Company Urged to Forsake Evil Ways.

Pittsburgh, Pa., March 16.—An appeal to its thousands of employees to lead a moral life as a means of increasing their own safety while at work and of improving their chances for promotion has been made by the Carnegie Steel company as a part of a "safety first" campaign.

In a series of pamphlets which have been distributed among the men for several weeks the company, by means of charts, shows how much longer a man lives who lives "right" than one who dissipates and tells of the better school work done by children of the workmen who lead a clean life compared with one who does not and how much less liable the workman is to accident because of his being alert and careful. The men are appealed to strictly from a business standpoint.

COLO. LEGISLATOR EXPELLED

Perjurer Loses Place on Charges in Volving Lindsey Case.

Denver, Colo., March 16.—Representative W. W. Howland was expelled from membership in the general assembly on a charge of perjury.

This action was taken when the house adopted the report of the special committee which investigated the charges that Howland had received a package of money on Feb. 9.

The effort to oust Judge Lindsey by abolishment of the juvenile court is involved.

WANTS WATER AT LAUNCHING

Pittsburgh Man Suggests Water From Three Rivers Instead of Wine.

Harrisburg, Pa., March 16.—W. J. Holland, of Pittsburgh, suggested to Governor Brumbaugh that the Pennsylvania should not be christened with wine, but with water from the Delaware, Susquehanna and Ohio rivers. He brought the Ohio water along, and wired Bayard Henry to get some Delaware water.

U. S. Officers to East Front

Berlin, March 16.—A party of six American army officers left Berlin for the eastern battle front under the guidance of Captain Malzahn. The group is composed of Lieutenant Colonel Joseph E. Kuhn, of the engineers; Major Clarence C. Williams, of the ordnance department; Major Dwight E. Aultman, of the field artillery; Captain Samuel D. Rookerbach, of the cavalry; Captain Wilson B. Burr, of the infantry, and Captain Samuel G. Sharple, of the coast artillery.

Get Rid Of Rheumatism

An Easy Matter with Rheuma, the Marvelous Remedy for the Disease.

Drive out the uric acid from the joints. Get every particle of this poisonous matter out of your system, and keep it out.

You can do it with Rheuma, a scientific prescription that acts at once on kidneys, stomach, liver and blood; dissolves the uric acid and causes rheumatic agony to vanish.

Read this proof: "After treatment by three doctors without result, I have been cured of a very bad case of rheumatism by using two bottles of Rheuma. It is now two years since I used the remedy, and I am still as well as ever. Previously I was a cripple, walking with crutches."—Judge John Barhorst, Fort Loraine, Ohio.

The People's Drug Store thinks enough of Rheuma to offer it on the "no-cure, no-pay" plan at 50 cents.

HEAD STUFFED FROM CATARRH OR A COLD

Use Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hacking, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relieves comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.

SULPHUR DRIES UP ECZEMA AND STOPS ITCHING

This old time skin healer is used just like any cold cream.

Sulphur, says a renowned dermatologist, just common old sulphur made into a thick cream will soothe and heal the skin when irritated and broken out with Eczema or any form of eruption. The moment it is applied all itching ceases and after two or three applications the Eczema disappears, leaving the skin clear and smooth.

He tells Eczema sufferers to get from any good pharmacy an ounce of bold sulphur and apply it to the irritated parts the same as you would any cold cream.

For many years common old sulphur has occupied a secure position in the practice of dermatology and cutaneous affections by reason of its parasiticide, but also antipruritic, antiseptic and remarkably healing in all irritable and inflammatory conditions of the skin. While not always effecting a permanent cure it never fails to instantly subdue the angry itching and irritation and heal the Eczema right up and it is often years later before any eruption again appears on the skin.

THE ARCHITECT

By EUNICE BLAKE

Julia Edmonds after leaving the high school was eighteen years of age and obliged to make her own living. Seeing an advertisement in a newspaper for a governess, she replied to it and was invited to a conference. A lady, Miss Ashford, who said she was the aunt of the children to be taught and cared for, received the applicant, asked a number of questions and for references, and Julia was engaged.

The lady was a woman past forty, the sister of the father of the children. Their mother was dead, and their father at the time was abroad, his little girls being left in charge of their aunt. The home was near a suburban town and a very attractive one.

Spring came on, and one of the children needed a change of air. Miss Ashford decided to take them both southward to meet the coming summer, leaving Julia where she was until their return.

One warm morning the governess went out into the grounds with a book and seated herself on a rustic bench supported on either side by a tree. While reading she heard a step on the walk leading from the gate and, looking up, saw a gentleman apparently about thirty-five years old approaching. He paused before her in his walk and said:

"You look very contented and very restful."

"I am both," was the reply.

"Will I find Miss Ashford at the house?"

"Miss Ashford is away. She took the children to the country for a change of air."

"I'm." The gentleman looked about him, then turned again to Julia.

"It's unfortunate that Miss Ashford is absent. I've been sent by the owner of this property to make plans for additions to the house. I fear I shall have to intrude myself upon you for awhile."

Julia made no reply to this. She had no authority either to prevent or permit his doing what he mentioned. He went on to the house and entered it without ringing the bell. When Julia went there herself the housekeeper told her that the gentleman was an architect and would remain while he laid his plans. He made himself at home, but as to making plans Julia could not see that he devoted much time to the work. True, he did some diagram drawing in pencil, but on this he did not spend an hour a day.

The rest of the time he divided between the library and Julia. When he tired of books, there being no one besides her to chat with, he seemed disposed to utilize her for company. He interested her in what he said, and she was of an age to appreciate the ideas of an older man. The housekeeper and the servants were deferential to him, gave him everything he desired without question and obeyed all his orders.

Every day Julia found the architect—every one in the house spoke of him as the architect—more and more engaging. A day which he spent in the city she was surprised to find a very long one to her. When he returned and they sat down together for dinner she could not conceal her pleasure.

A week passed, at the end of which building materials were brought into the place and dumped beside the house. The next day workmen came, and the architect spent some time with the contractor over diagrams. Julia asked the former with a beating heart if he were going to superintend the construction of the additions. He said he was and they would require at least a month. The housekeeper informed her that Miss Ashford and the children would remain away until the work was finished.

An attractive man of thirty-five shut up in the same house with a girl of eighteen is not likely to have much trouble in winning her. Before the additions were finished the architect had made havoc with poor little Julia's heart. She did not think of marriage. All she desired was to live on just as she was in the companionship of this delightful man.

But the architect was thinking very much of marriage. He was a widower—so he told Julia—and very lonely without a companion. He asked her how she would like to spend her life where she was, to which she replied that she would like it very much, especially if he were to continue making additions to the house. He saw through this ingenious reply and, taking her in his arms, told her that if she chose she might remain there always and he would remain also.

She did not press him for an explanation, which he did not seem ready to give. She was happy and contented and trusted him implicitly. A few days later Miss Ashford returned with the children and the latter jumped into the architect's arms, covering him with kisses and calling him papa.

The next day he asked them if they could bear to part with their governess, to which they replied that they could not, whereupon he told them that she was to remain with them always.

David Ashford had dreaded to come to his home from which his wife had gone forever. When he saw an attractive girl there the idea occurred to him to keep her there. So he told the housekeeper and the others to preserve his incognito, and "the architect" began to win the governess.

MRS. MELTON'S LETTER

To Tired Worn-out Mothers

Jackson, Miss.—"I shall feel repaid for writing this letter if I can help any tired, worn-out mother or housekeeper to find health and strength as I have. 'I have a family of five, sew, cook and do my housework and I became very much run-down in health. A friend asked me to try Vinol. I did so and now I am well and strong and my old time energy has been restored. Vinol has no superior as a tonic for worn-out, run-down, tired mothers or housekeepers.'—Mrs. J. N.
